Experience

Frontend Developer- Web Ariaei Team

2024-2025, Tehran,Iran

- Developed responsive websites, dashboards, and web pages using HTML5, CSS3 (Flexbox & Grid), and modern JavaScript (ES6+), ensuring cross-browser compatibility and mobile optimization.
- Translated Figma prototypes into branded, user-friendly interfaces with dynamic forms, animations, and client-side validation, improving engagement and accessibility compliance.
- Collaborated with designers, product managers, and stakeholders in agile workflows, incorporating feedback to refine features and accelerate delivery.

Web Designer - Lámour Team

2023-2024, Tehran,Iran

- Designed and developed ecommerce and commercial websites using WordPress as a foundation, delivering responsive and visually consistent layouts.
- Created intuitive UI/UX designs and interactive prototypes in Figma to guide development and enhance user experience.
- Integrated Figma-driven design with WordPress customization to produce modern, user-focused websites aligned with business goals.

Independent Projects & Learning

- Currently self-learning React.js and Next.js, applying concepts through hands-on personal projects.
- Built and deployed portfolio projects showcasing modern frontend practices, reusable components, and optimized performance.
- Developing a shopping website with React/Next.js to deepen understanding of state management, routing, and ecommerce functionality (not yet listed in portfolio).
- Continuously creating smaller practice projects with React and Next.js to experiment with features, strengthen problem-solving, and reinforce learning.
- Demonstrated initiative by expanding skills beyond prior roles and consistently updating knowledge of modern web technologies.
