BEHANCE

Frontend Developer with **3+ years** of experience building production-grade web applications using **React**, **Next.js**, **TypeScript**, and **Tailwind CSS**. Founder of **K7 Studio** — a web design & development studio delivering bilingual **RTL/LTR** products for Iranian and international clients. Specializes in translating Figma designs into scalable, accessible UI systems and shipping full-stack Next.js apps from concept to custom domain.

EXPERIENCE

Founder & Frontend Developer — K7 Studio

2024 – Present

Tehran, Iran · Independent Studio · Remote-ready

- Founded and operate a full-service web studio delivering **UI/UX design**, **Next.js development**, and **WordPress builds** for Iranian and international clients.
- Architected **bilingual RTL/LTR Next.js codebases** with locale-aware routing, self-hosted Persian/Latin font stacks, and direction-safe Tailwind utilities.
- Built and shipped **7 production sites** across e-commerce, hospitality, legal, and portfolio verticals — all deployed on Vercel with custom domains.
- Integrated **WhatsApp-based cart flows** with localStorage persistence as a zero-backend e-commerce solution for Iranian market constraints.
- Implemented **Framer Motion** animation systems including scroll-triggered reveals, viewport-based stagger sequences, and word-level zoom transitions.

Frontend Developer — Web Ariaei Team

Dec 2024 – Jan 2026

Tehran, Iran

- Built and maintained **5+ responsive web applications** using HTML5, CSS3, Next.js, TypeScript, and React — achieving consistent rendering across Chrome, Firefox, and Safari.
- Reduced mobile page-load time by **25%** through code splitting, lazy loading, and image optimization strategies.
- Translated Figma prototypes into polished, brand-aligned UI components with **dynamic forms**, **micro-animations**, and client-side validation.
- Delivered a fully bilingual site for **decobam.com** featuring seamless language switching and localized, brand-consistent UX.
- Designed and implemented a **custom location search bar** for zarmatn.ir, enabling map-based discoverability of Zarmatn physical locations.
- Collaborated in **agile workflows** with designers and product managers to accelerate feature delivery and refine UI based on stakeholder feedback.

Web Designer — Lámour Team

Jan 2023 – Dec 2024

Tehran, Iran

- Designed and developed **e-commerce and commercial websites** using WordPress, delivering responsive and visually consistent layouts.
- Created interactive **UI/UX prototypes in Figma** for client approval before development, reducing revision cycles.
- Built landing pages using WordPress for animations and smooth scroll interactions.

CLIENT PROJECTS — K7 STUDIO

Mirass Roastery

Next.js · TypeScript · Tailwind · RTL/LTR

Bilingual coffee brand site with WhatsApp cart integration and localStorage persistence.

[mirasscoffee.com](#)

Nona Artworld

Next.js 14 · Framer Motion · Resend API

Art gallery & e-commerce with 3 curated collections, commission shop, and animated transitions.

[nonarouzbahani.vercel.app](#)

Vegamis Cafe

WordPress · Elementor Pro · JetEngine

Digital menu with dual-price cards, category tab navigation, and custom RTL CSS design system.

[vegamis.com](#)

Alemohamad Law Office

WordPress · Elementor · Shabnam FD · RTL

Persian legal office site with custom brand identity, RTL layout, and domain migration.

[alemohamadlaw.com](#)

Shid Wear

Next.js · TypeScript · Tailwind

Streetwear e-commerce storefront with bilingual product catalog and responsive design.

[shid-wear.vercel.app](#)

Nimrooz Cafe

Next.js · Tailwind · RTL

Cafe digital menu and brand site with RTL layout and responsive component architecture.

[nimroozcafe.vercel.app](#)

Reve Cafe

Next.js 15 · OG Meta · PWA-ready

Digital menu with custom favicon, Open Graph meta tags, and Next.js version migration fix.
